WebKIDS/USIIS User Tip: USIIS provides a way for a user to change the password in the Admin section of WebKIDS. If you want to change your password, or if you are concerned about security, then all you need to do is follow these steps. First login to WebKIDS and then load the Admin application of WebKIDS by pressing the salmon-colored button marked Admin. The Admin section will most likely load to another window or tab of your browser. Next, press the yellow button labeled Change Pass. There are three fields to enter text. Enter the password you used to login to WebKIDS in the top field. The next two fields will contain the same information - the new password you have chosen. Lastly, press the Update button and wait to press the OK button on the confirmation pop-up. Your password is now changed. Don’t forget the new password!
