

Utah Statewide Immunization Information System (USIIS) Monthly Report March 2007

Annual Report: The USIIS portion of the CDC Immunization Program Annual Progress Report has been completed. There were 196 public and private provider sites actively submitting immunization data to USIIS in 2006. **Contact Sandra Schulthies at 801-538-9452 or sandys1@utah.gov.**

Provider Enrollment: There were three private providers and one day care center enrolled in March: Layton Family Medicine, U of U Westridge, U of U Centerville and West Jordan Child Care. In addition, ten providers received re-training. **Contact Janel Jorgenson at 801-538-9991 or janeljorgenson@utah.gov.**

Oversight Committee: The USIIS Oversight Committee met on March 23. Discussion included defining implementation of the 2006 HLN USIIS evaluation recommendations. **Contact Nancy Paré at 801-538-6871 or npare@utah.gov.**

USIIS User Tip: Here is a refresher on how to change passwords. To change your password, login to the USIIS web application using your current user id and password. Click on the “Admin” tab on the bottom right of the application to open up another window or browser tab. In the newly opened application, select the “Change Pass” tab on the bottom left side. The screen has three text entry boxes and two buttons. Refer to the top box for your current password. It is labeled, “Old Password.” Enter your current password in this box. Select or press your tab key to get to the next box labeled, “New Password.” Enter your newly selected password in this box. Select or press tab key to get to the next box labeled, “Retype New Password.” As indicated, retype your new password. If you make a mistake, just press the “Reset” button and start the process over. If you are satisfied that your new password is correct, press the “Update” button. Your password is now updated. Close the USIIS Admin application. For more information on this tip, **contact J.C. Alexander at 801-538-6827 or jcalexander@utah.gov.**

Duplicate Records: The existence of duplicate records is a never ending challenge with immunization registries around the country. A recent study of new data processing has shown a reduction of 82% of our possible duplicates file. USIIS will soon implement new data processing technology in the New Load. This will allow end users to find patient records more easily. **Contact Chris Pratt at 801-209-1041.**
